SUMMARY	**Computer Scientist** working in **Machine Learning** with 8+ years research experience.
INTERESTS	Machine Learning, Deep Learning, Natural Language Processing

EDUCATION

Northwestern University, Evanston, Illinois USA
  Ph.D., Computer Science   **Sep '19**
  Master of Science, Computer Science

Birla Institute of Technology & Science, Pilani, Rajasthan India
  Master of Engineering, Software Systems   **May '12**
  Bachelor of Engineering, Chemical Engineering

PROGRAMMING SKILLS

Proficient: Python, Keras/Tensorflow, Scikit-Learn, Dash/Plotly, Matplotlib/Seaborn, Pandas, FastAI, XGBoost/LightGBM, Shapley, NLTK, Gensim, Selenium
Familiar: OpenCV, Spacy, PySpark, PyTorch, R, MATLAB, C, C++, Java, LAMP, SQL, weka, HTML/CSS

PROFESSIONAL EXPERIENCE

Machine Learning Scientist, **American Family Insurance**, Madison, Wisconsin   **Oct'19-**
- Designing insurance-based language models for predicting claims fraud
- Developed SARIMAX and deep learning forecasting financial metrics for next calendar year
- Develop a machine learning system for estimating motor vehicle violation risk

Data Science Intern, **Northwestern Mutual**, Milwaukee, Wisconsin   **Jun - Aug '18**
- Developed distributed OCR algorithms for detecting responses from scanned questionnaires
- Designed a noise reduction algorithm to de-noise scanned and photocopied questionnaires

Research Intern, **Boeing Cybersecurity**, Sunnyvale, California   **Jun - Sep '13**
- Generated synthetic user profiles with different demographic and interest features for analyzing ads across profiles
- Developed a machine learning model for predicting user demographics and interests from ads

RESEARCH PROJECTS

Research Assistant, **Northwestern University**, Evanston, Illinois   **Sep '12 - Aug'19** -
- Chemical Property Prediction using Molecular Fingerprints (Tensorflow, Scikit Learn)
    ◇ Developed a multi-input input neural network architecture by merging different molecular representations (SMILES and fingerprints) for predicting chemical properties and reduced the mean absolute error by half compared to state-of-the-art architectures (CheMixNet architecture)
    ◇ Designed Bagged Ensemble models for predicting power conversion efficiency of solar cells using chemical fingerprints, and achieved mean absolute percentage error between 1.5-2 %
    ◇ Developed a transfer learning solution to predict solar cell properties with mean absolute percentage error below 1 % (SINet architecture)

- Developed Predictive Model for Additive Manufacturing (Tensorflow, Keras)
    ◇ Created time series models for temporal analysis of temperature and heat flux data
    ◇ Investigated Recurrent Neural Network models to predict point-wise temperature information for accelerating additive manufacturing simulations
    ◇ Developed an iterative real-time predictive model using bagged decision trees

- Ensemble Learning-based Guided Optimization for Aircraft Design (MATLAB, Python)
    ◇ Created intelligent sampling algorithms to explore the constrained search space for candidate microstructures
    ◇ Developed Feature Ranking-based Technique for Search Space Reduction of Constrained Non-Convex Optimization
    ◇ Achieved 100x more solutions compared to state-of-the-art methods that can accelerate the design-to-experiment life-cycle

- Classification of Anonymous Posts using Recurrent Neural Networks (Keras, Scikit Learn)
    ◇ Developed customized vector model using crowd-sourced (Urban Dictionary) & psycho-lingual (LIWC) dictionaries
    ◇ Explored Word2vec, GloVe and FastText embedding schemes (Gensim)
    ◇ Attained prediction accuracy of 79.8 % and 78.1 % using ensemble and LSTM models respectively

FELLOWSHIPS

McCormick Dean's Commendation Fellowship	**'18 Spring**
Predictive Science and Engineering Design Fellowship	**'16-'17**
Segal Design Fellowship	**'14-'15**
Walter P. Murphy Fellowship	**'12-'13**

SELECTED TEACHING AND LEADERSHIP

Teaching Assistant & Guest Lecturer, **Northwestern University**　　　　　**Jan'14- Jun'19**
- ◇ Prepared and delivered weekly lectures for 20-50 students
- ◇ Courses: Social Media Mining, Data Structures , Introduction to Programming (Python)

President/Vice-President/Treasurer, **Northwestern Toastmasters**　　　　**Sep '15 -May '18**
- ◇ Lead the Northwestern chapter of Toastmasters with over 30 graduate students, post doctoral fellows from 10 different departments
- ◇ Co-wrote proposal to The Graduate school and obtained 3000 USD to fund programming

Co-Facilitator, **Northwestern Dialogue Group**　　　　**Oct '16 - Sep '17**
- ◇ Facilitated dialogue in safe spaces for cultural exchange across international and domestic students
- ◇ Organized social events to enhance group cohesion
